disease and from a public safety aspect the Trustees wish now to fell the worst affected trees (up to 8) and pollard the remainder. These ash trees are identified on the attached plan of the playing field. None of these trees are the subject of TPOs. The trees in question form part of the dense boundary hedging of mostly the West side of the Playing Field with other trees of sycamore, silver birch, hornbeam and beech.
Granted 24/01/23
